

The castle tour

There was once a castle that had a magical switch board that took you anywhere you want around the castle! The first switch took you to the resort which had an attached beach! The second switch took you to the pond which had many flamingoes. The last switch would take you to the forest path which will lead you to a flower field in which there were bulls and cows that gave you milk and other dairy products. When the night would come you need to plug a plug to see the beautiful night sky. Hope you liked the tour around the castle and learning about the magical switch board! Bye!!

The end!!!!
